Professional Grade Mini-Max Panel Saw -- \$2,000

The saw has:

12" blade

50" on the right side of the blade

120" on the left side of the blade

10 ft. table sliding capability.

The last time I checked, the squareness accuracy was about 1/8" in 96".

The scoring blade works, but the alignment lever is now misaligned and I haven't fixed it.

Asking \$2000. (pretty firm, but will think about another offer)

If you have any questions please call me. 393-0525. If I'm not there, leave a message.
